## PROJECTS

### Website designing for carenest.

🌐 <https://www.carenest.in/>

CareNest, a digital multispecialty OPD that believes in empowering individuals to live healthier lives through telehealth and expert advice. This project involved designing and developing a comprehensive website that automates the consultation process, revolutionizing the way patients seek medical guidance. Our goal was to create a user-friendly platform that seamlessly integrates telehealth services and facilitates the upload of important medical documents, ensuring a streamlined and efficient experience for patients.

### Website development for byko journey

🌐 <https://www.bykojourneys.com/>

Byko Journeys is a travel company that offers unique and exceptional travel experiences to people who are looking for adventures off the beaten path. I had created this whole user friendly website from scratch in Next js using React js as frontend and Nodejs as backend.

### Techfacto website development

🌐 <https://www.techfacto.com/>

Techfacto is an IT Company that provides customized solutions, security services, Planning & Implementation of On-Prem & cloud solutions. I had created this website from scratch using express js, html/css and js.

### Totalgaming project

🌐 <https://www.totalgaming.in/>

Total Gaming, a prominent gaming brand, i had created their captivating website and this project allowed me to leverage the power of 3D illustrations to create an immersive and visually stunning online experience for gaming enthusiasts. These illustrations bring the gaming world to life, capturing the excitement, energy, and thrill associated with gaming, it also shows the subscriber count of totalgaming youtube channel.
